### REFRIGERATION RECOMMENDED BUT NOT NECESSARY

**FOR A RICH BEEF BASE** use 3/4 tsp Beef Base for each cup (8 fl oz) boiling water (this is equivalent to 1 bouillon cube and is more flavorful). Plain broth is good food for those times you're under the weather. Add cooked vegetables or noodles for a quick lunch.

Use Beef Base to enhance or "beef up" the flavor of soup, stew or gravy. To 2 quarts of simmering (200°F) soup or stew, add 2-3 tsp Beef Base. To simmering (200°F) gravy, add 1 tsp Beef Base to 2-3 Tbsp beef drippings to enhance the flavor of 2 cups gravy.

In a pinch, make beef gravy by simmering (200°F) 2 cups water with 2 tsp Beef Base, then slowly drizzle in 1 Tbsp Arrowroot Starch mixed with 2 Tbsp water and cook until thickened.

**HAM BASE IS TRADITIONALLY** used to add wonderful smoky ham flavor to split pea or bean soup.

For 2 quarts of simmering (200°F) soup or stew made with a hambone, add 1 Tbsp Ham Base to enhance the flavor. For soup made without a hambone, use 1 tsp Ham Base per cup (8 fl oz) boiling water. The soup will still taste even better if 1 cup diced cooked ham is added for each quart of soup.

To simmering (200°F) gravy, add 1 tsp Ham Base to 2-3 Tbsp drippings from baked ham to enhance flavor of 2 cups gravy.

Ham Base gives a flavor boost to plain vegetables or rice, just add a bit to the cooking water (200°F).
